New Jersey based singer, producer, songwriter and multi-instrumentalist Danny Danzi released his third album, entitled "Tribulations", through Escape Music on 24th September. The album is his first in about 18 years, following on from two well received albums called "Somewhere Lost In Time" and "Danziland". I linked up with Danny over Facebook and we arranged to record an interview on 28th September via Skype. We chatted for about 40 minutes about the new album, his recording studio, the previous albums and much more. That interview and four Danny Danzi tracks can be heard on the Friday NI Rocks Show on 1st October -
